## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **BUSINESS REVIEW**

The Group is principally engaged in provision of light-emitting diode (“LED”) lighting fixtures and integrated LED lighting solution services for retail stores of world-renowned end-user luxury brands mainly in the Asia market.

The Group did not record any revenue from provision of integrated LED lighting solution services for the three months ended 30 June 2018. For the sales of LED lighting fixtures, the revenue has increased from HK\$10.0 million for the three months ended 30 June 2017 to HK\$14.3 million for the three months ended 30 June 2018, part of it was caused by the delay in handover of certain projects from last financial year and has been recognised during the three months ended 30 June 2018. In addition, starting from 1 May 2018, the Value Added Tax (“VAT”) rate of the PRC has decreased from 17% to 16%. Coupled with this favorable tax treatment, sales of LED lighting fixtures in the PRC has increased by HK\$5.8 million for the three months ended 30 June 2018. For the LED lighting system consultation and maintenance service, the revenue has increased from HK\$148,000 to HK\$659,000, which is directly related to increase in projects completed during the three months ended 30 June 2018.

For the three months ended 30 June 2018, the Group recorded a net profit of HK\$325,000, as compared to a net loss of HK\$1.2 million for the three months ended 30 June 2017, as the Group did not incur any non-recurring listing expense for the three months ended 30 June 2018.

### **FINANCIAL REVIEW**

#### **Revenue**

Our revenue increased by approximately HK\$4.9 million or 48.5%, from HK\$10.1 million for the three months ended 30 June 2017 to HK\$15.0 million for the three months ended 30 June 2018, as sales of LED lighting fixtures in the PRC has increased by HK\$5.8 million owing to the decrease in VAT rate in the PRC starting from 1 May 2018, which directly boosted our sales in the PRC.

## **Direct Cost and Gross Profit**

Our direct costs comprise of components, staff costs, subcontracting fee and labour costs. The direct costs increased by approximately HK\$1.6 million or 26.2%, from HK\$6.1 million for the three months ended 30 June 2017 to HK\$7.7 million for the three months ended 30 June 2018, which is in line with the increase in revenue for the three months ended 30 June 2018.

With the increase in revenue, our gross profit increased by HK\$3.3 million to HK\$7.3 million for the three months ended 30 June 2018, and the gross profit margin increased from 39.7% for the three months ended 30 June 2017 to 48.7% for the three months ended 30 June 2018.

## **Administrative Expenses**

Our administrative expenses mainly comprise of salaries and allowance expense, accounting for 65.1% and 62.2% for the three months ended 30 June 2018 and 2017, respectively. Administrative expenses increased by approximately HK\$2.1 million or 56.8%, from HK\$3.7 million for the three months ended 30 June 2017 to HK\$5.8 million for the three months ended 30 June 2018. With increase in headcount and increase in monthly average salary and discretionary bonus paid during the three months ended 30 June 2018, employee benefit expense has increased by HK\$1.4 million for the three months ended 30 June 2018. In addition, the Group has been successfully listed on the GEM of Stock Exchange on 25 January 2018 and hence, the associated legal and professional fee has increased by HK\$0.5 million for the 3 months ended 30 June 2018. Moreover, we have rented an extra premise for office purpose in July 2017, which led to an increase in rental expense by HK\$0.2 million for the three months ended 30 June 2018.

## **Income Tax Expense**

Income tax expense has increased significantly from HK\$18,000 to HK\$1.3 million for the three months ended 30 June 2018, as our PRC subsidiary, Shenzhen CH Alliance Trading Co., Ltd, has showed a significant increase in revenue during the period.

## **Profit for the period**

Despite the gross profit for the Group has increased by HK\$3.3 million, this has been offset by the increase in administrative expense and income tax expense. The Group recorded a profit of approximately HK\$325,000 attributable to owners of the Company for the three months ended 30 June 2018, which is similar to the profit of approximately HK\$407,000 for the three months ended 30 June 2017, before deducting the non-recurring listing expense.

## **Dividend**

The Board does not recommend the payment of interim dividend for the three months ended 30 June 2018 (three months ended 30 June 2017: nil).

## **OUTLOOK**

Although the economic performance of the PRC keeps growing, the US-China trade war turns fierce, which adds uncertainties to our business. On 6 July 2018, the US government imposed 25% tariffs on US\$34 billion worth of Chinese imports, and 25% tariffs on an addition basket of US\$200 billion worth of Chinese imports may be imposed in late August 2018. Aluminium and steel, the major materials we used in our production, are on the list of US\$200 billion worth of Chinese imports. If the US takes further action, the cost of LED lighting fixtures will inevitably increase. Moreover, our major component, LED chips, are sourced from the United States, which would be potentially affected by steps taken by the United States, for instance, embargo. In response to the potential threat from the US-China trade war, we have started to locate alternative source for LED chips from Japan and Korea as substitute to our US LED chips. On the contrary, entry barrier may be imposed by the PRC to block our potential competitors from the United States to enter the PRC market. We could take this opportunity to increase our market share in the PRC. In addition, RMB starts to depreciate against USD. As HKD is pledged with USD, the depreciation of RMB may offset the potential increase in cost of sales. Together with the decrease in PRC's VAT rate to 16% starting from 1 May 2018, management remains optimistic towards the future of the Group. Our management team will closely monitor and assess the potential impact of the US-China trade war on our business.

Despite the various challenges identified above, the Group is confident that we can overcome the challenges with our experienced teams and also creates new opportunities to develop our businesses.

The Directors consider that the current structure does not impair the balance of power and authority between the Board and the management of the Company given the appropriate delegation of the power of the Board and the effective functions of the independent non-executive Directors. The Board will continue to review the effectiveness of the corporate governance structure of the Group in order to assess whether separation of the roles of Chairman and CEO is necessary.

The Chairman is responsible for the Group’s strategic planning and the management of the operations of the Board, while the CEO takes the lead in the Group’s operations and business development. There is a clear division of responsibilities between the Chairman and CEO of the Company which provides a balance of power and authority.
